RELAY

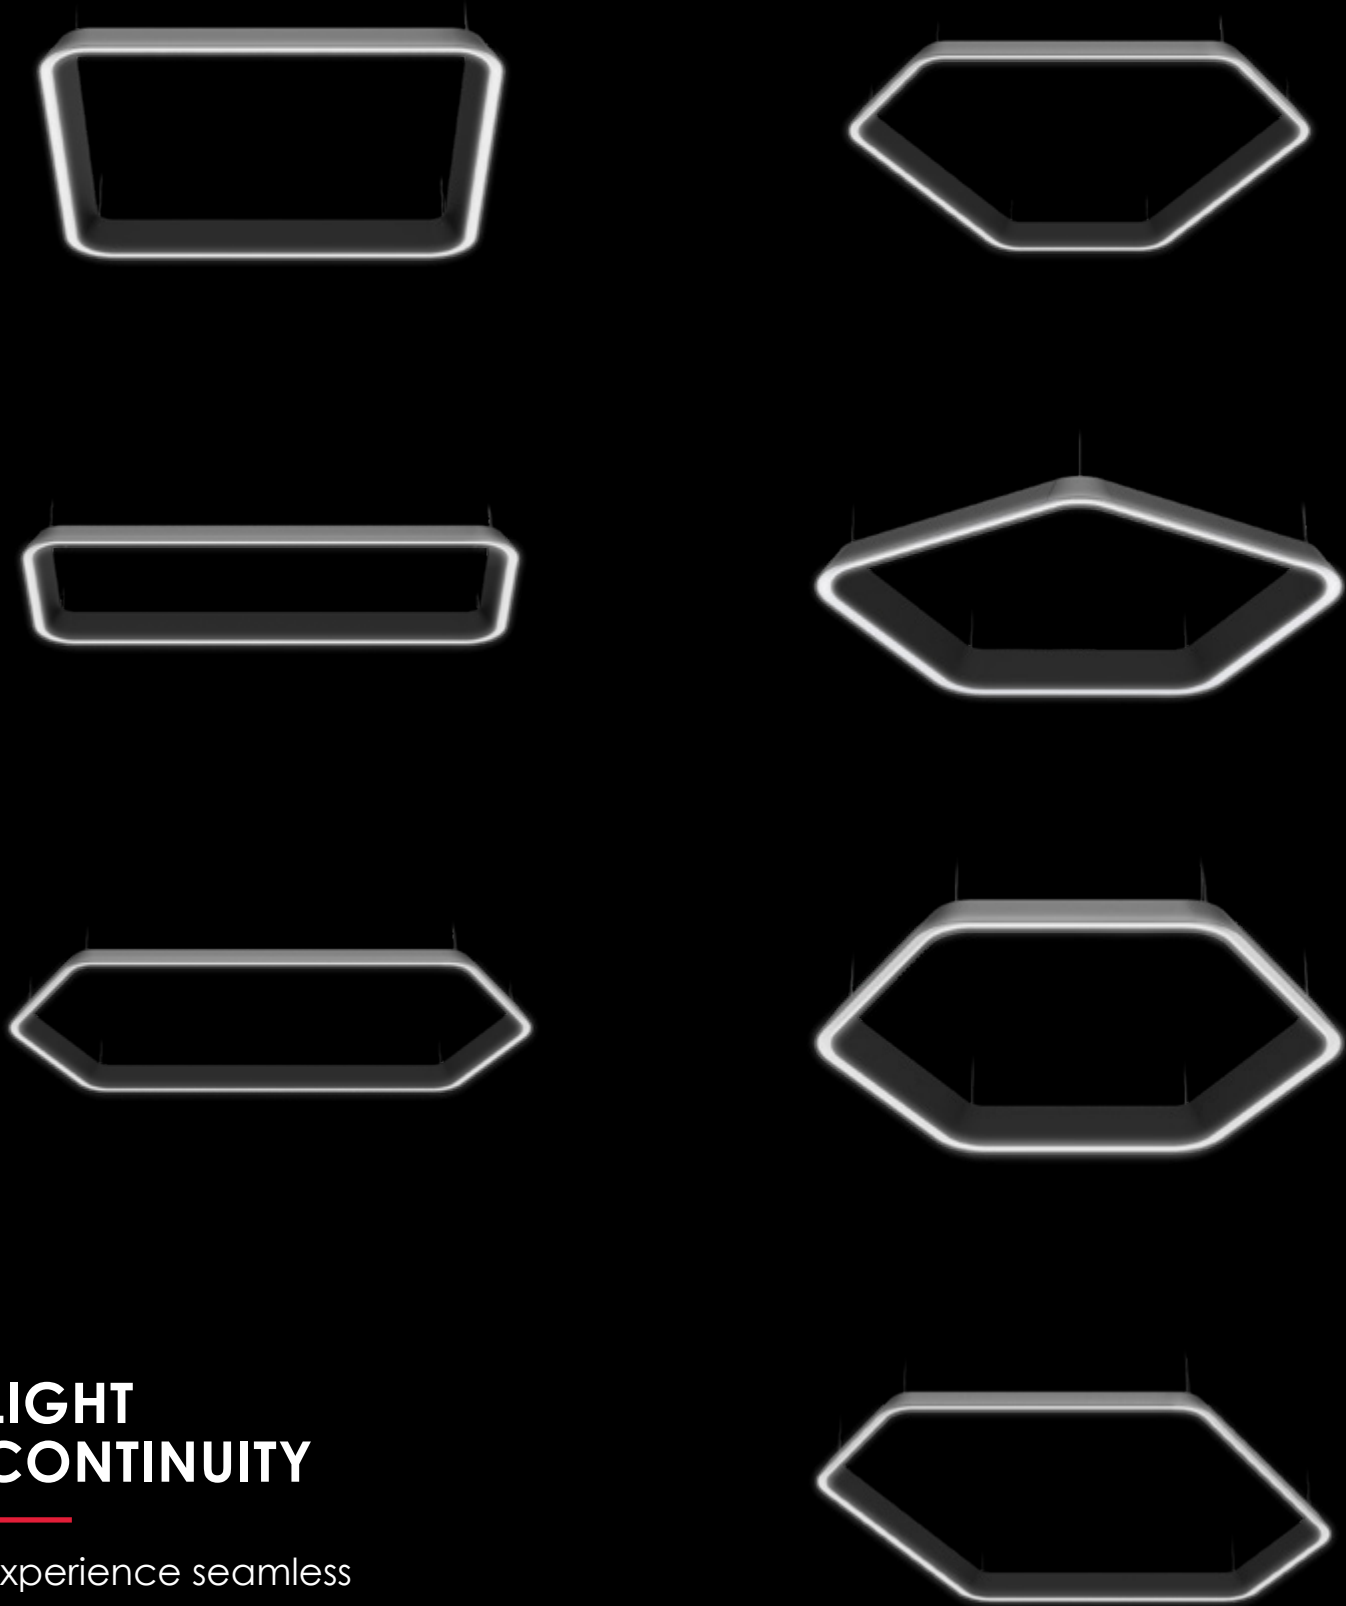

SHAPED FOR DESIGN

With curved and softened design elements, configure diverse geometric patterns with Relay.

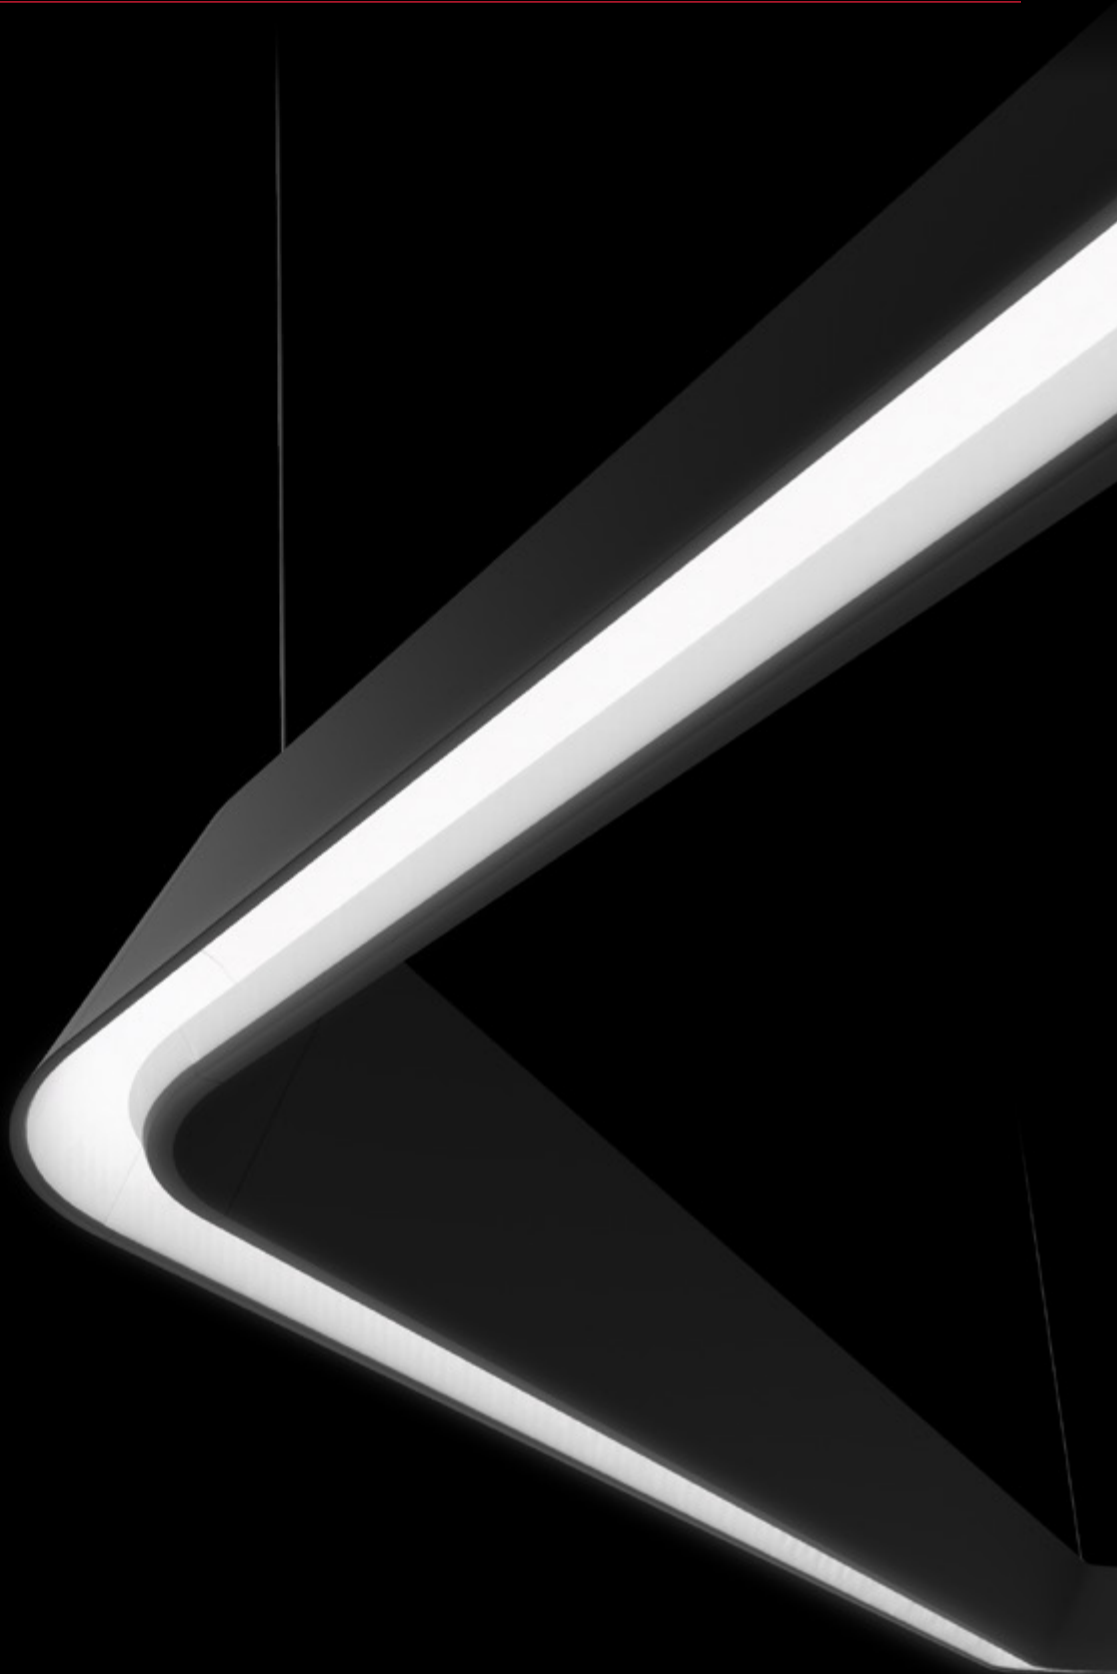

a·light

**LIGHT
CONTINUITY**

Experience seamless
illumination with fully lit corners
across all Relay shapes.

ENDLESS DESIGNS

Play with product proportions
to create unique designs
and patterns in a space.

RELAYING THE FEATURES

Uplight, downlight or both, Relay gives you the freedom to realize your lighting ambitions.

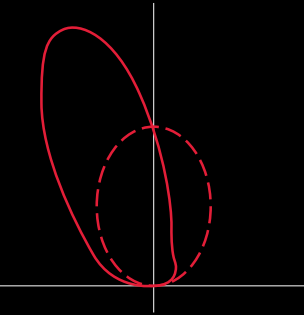

a·light

DIRECT

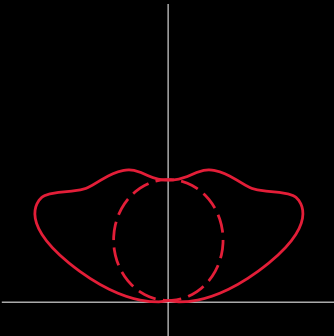

Lumens: 1297 lm/ft
Input watts: 12 W/ft
Efficacy: 106 lm/W

INDIRECT ASYMMETRIC

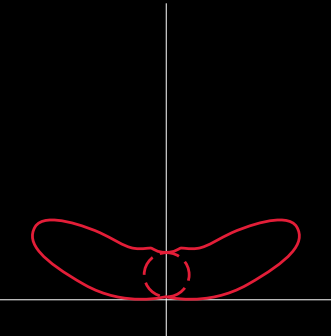

Lumens: 1383 lm/ft
Input watts: 12 W/ft
Efficacy: 113 lm/W

INDIRECT BATWING WIDE

Lumens: 1375 lm/ft
Input watts: 12 W/ft
Efficacy: 113 lm/W

INDIRECT BATWING EXTRA-WIDE

Lumens: 1359 lm/ft
Input watts: 12 W/ft
Efficacy: 111 lm/W

LIGHT DISTRIBUTION

Relay offers a lens-free direct distribution for reduced glare or high performance indirect optics that illuminate for various batwing distributions.

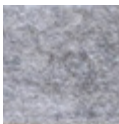

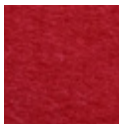

UNDISTURBED MOMENTS

Relay's acoustic panels
create a colorful and
quiet atmosphere.

ACOUSTIC
FELT COLORS

Made from recyclable polyester (PET) and sourced from recycled bottles, Relay's acoustic felt panels are available in 30 colors.

A modern retail store interior featuring high ceilings and large open spaces. The store is illuminated by large, black, rectangular pendant lights with white inner borders. The floor is made of large, light-colored tiles. In the foreground, a wooden display table holds a pair of blue jeans and some folded clothes. To the left, a mannequin in a dark suit stands next to a mannequin in a black dress. In the background, there are more clothing racks and shelves. A large, colorful abstract painting is on the wall. The overall atmosphere is sophisticated and high-end.

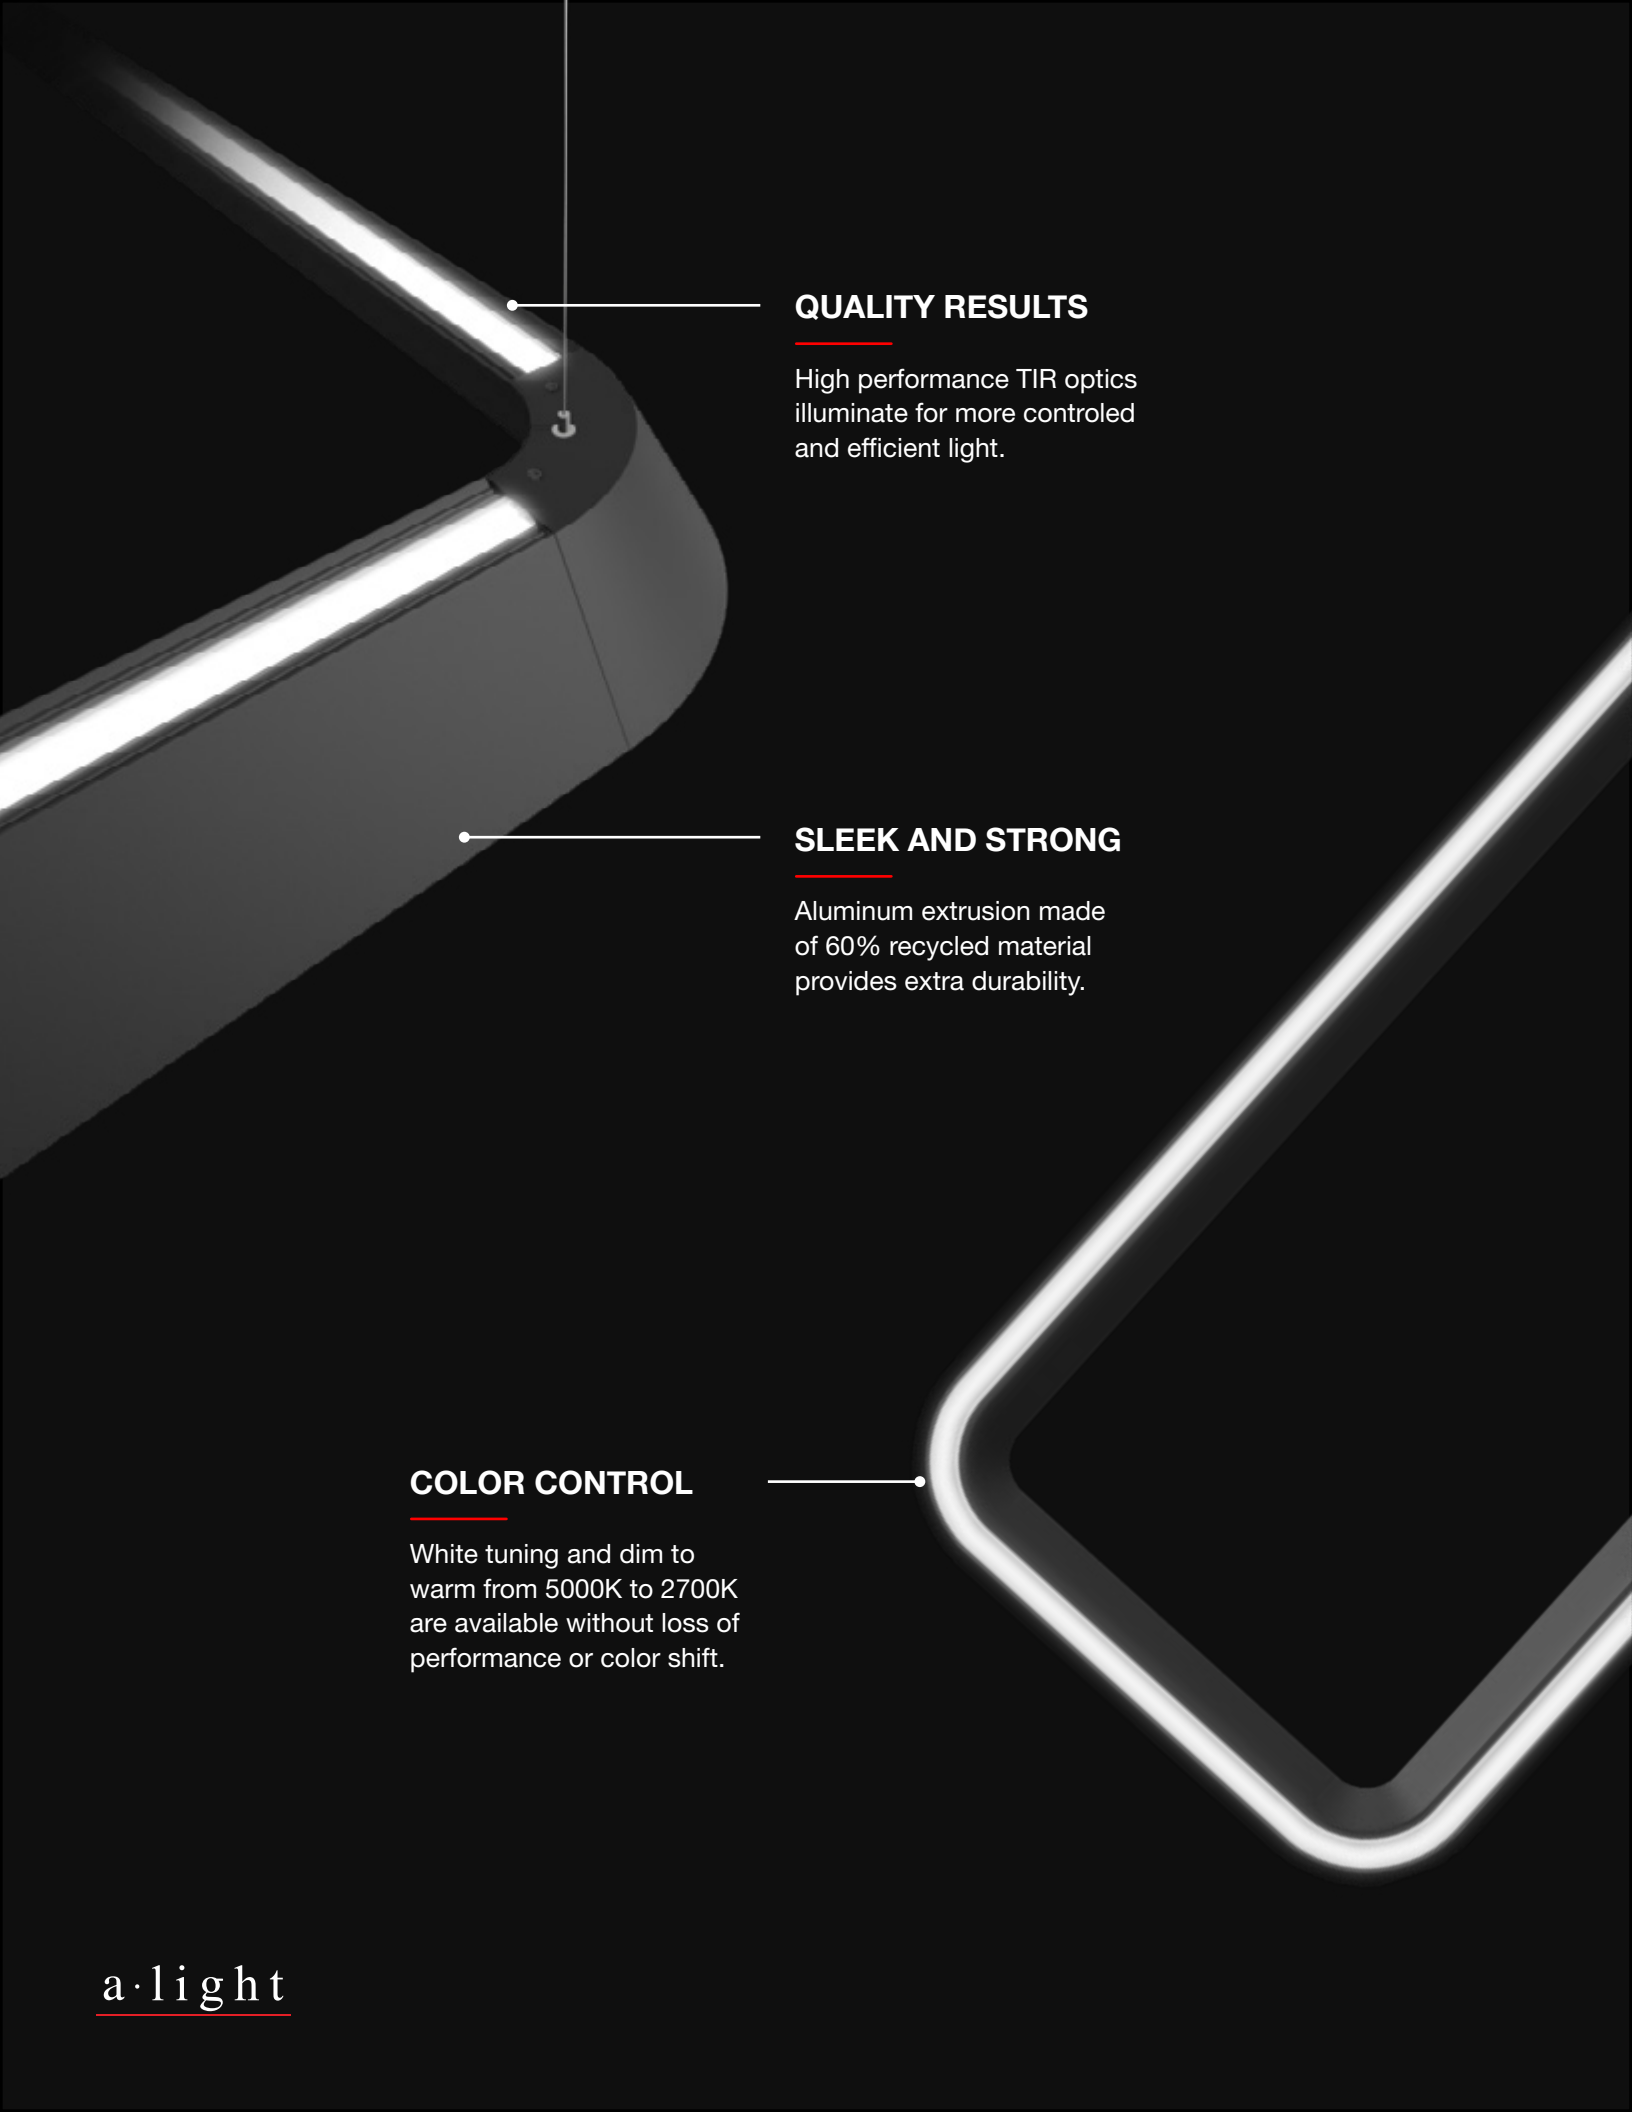

UPSCALE APPLICATIONS

Designed for high ceilings, large open areas and high-end environments, Relay is made to elevate a space.

**DESIGN
VERSATILITY**

Choose from Relay's three standard finishes or specify unique color options through collaborating with our Customer Care team.

QUALITY RESULTS

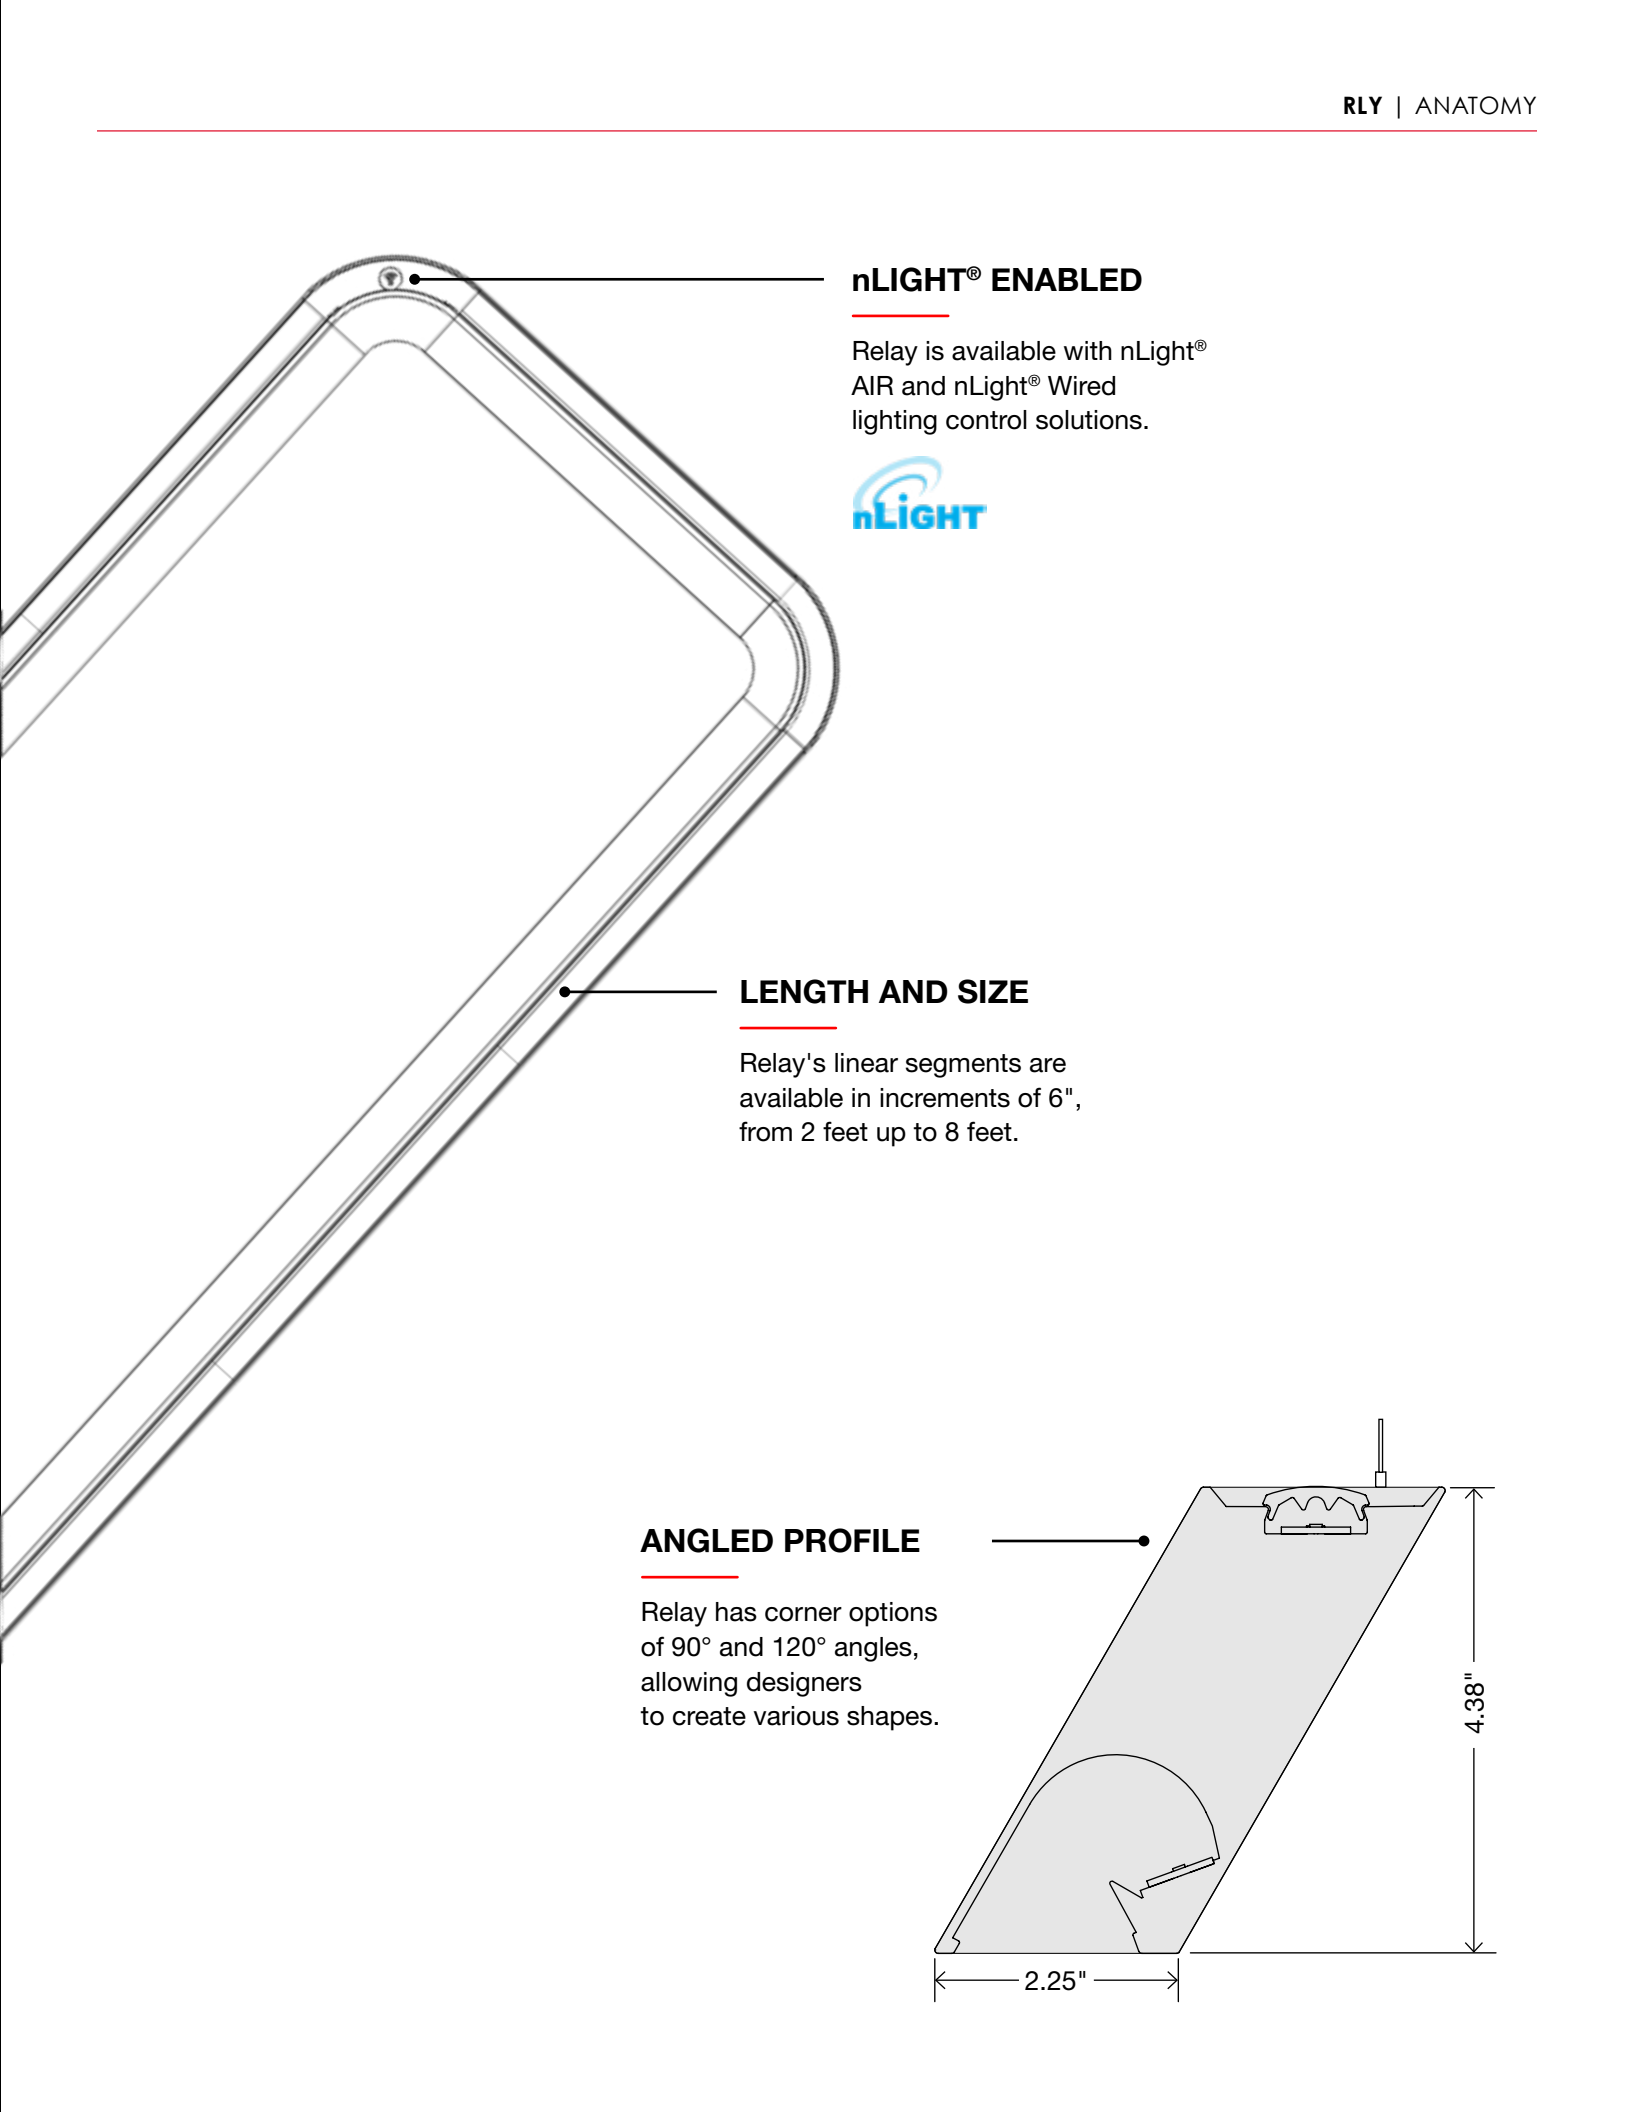

High performance TIR optics illuminate for more controlled and efficient light.

SLEEK AND STRONG

Aluminum extrusion made of 60% recycled material provides extra durability.

COLOR CONTROL

White tuning and dim to warm from 5000K to 2700K are available without loss of performance or color shift.

nLIGHT® ENABLED

Relay is available with nLight® AIR and nLight® Wired lighting control solutions.

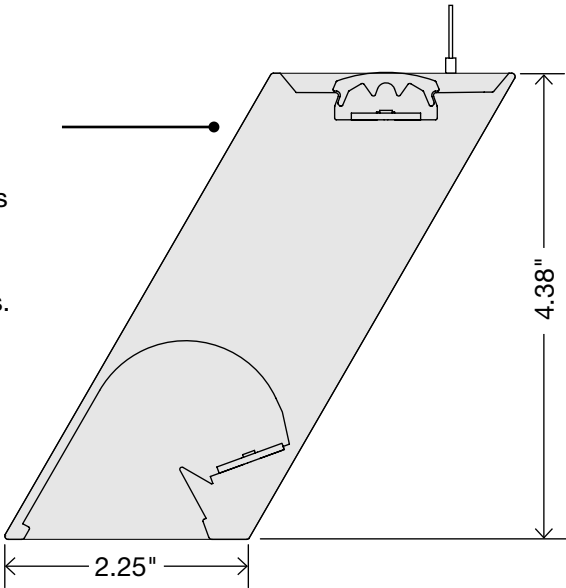

LENGTH AND SIZE

Relay's linear segments are available in increments of 6", from 2 feet up to 8 feet.

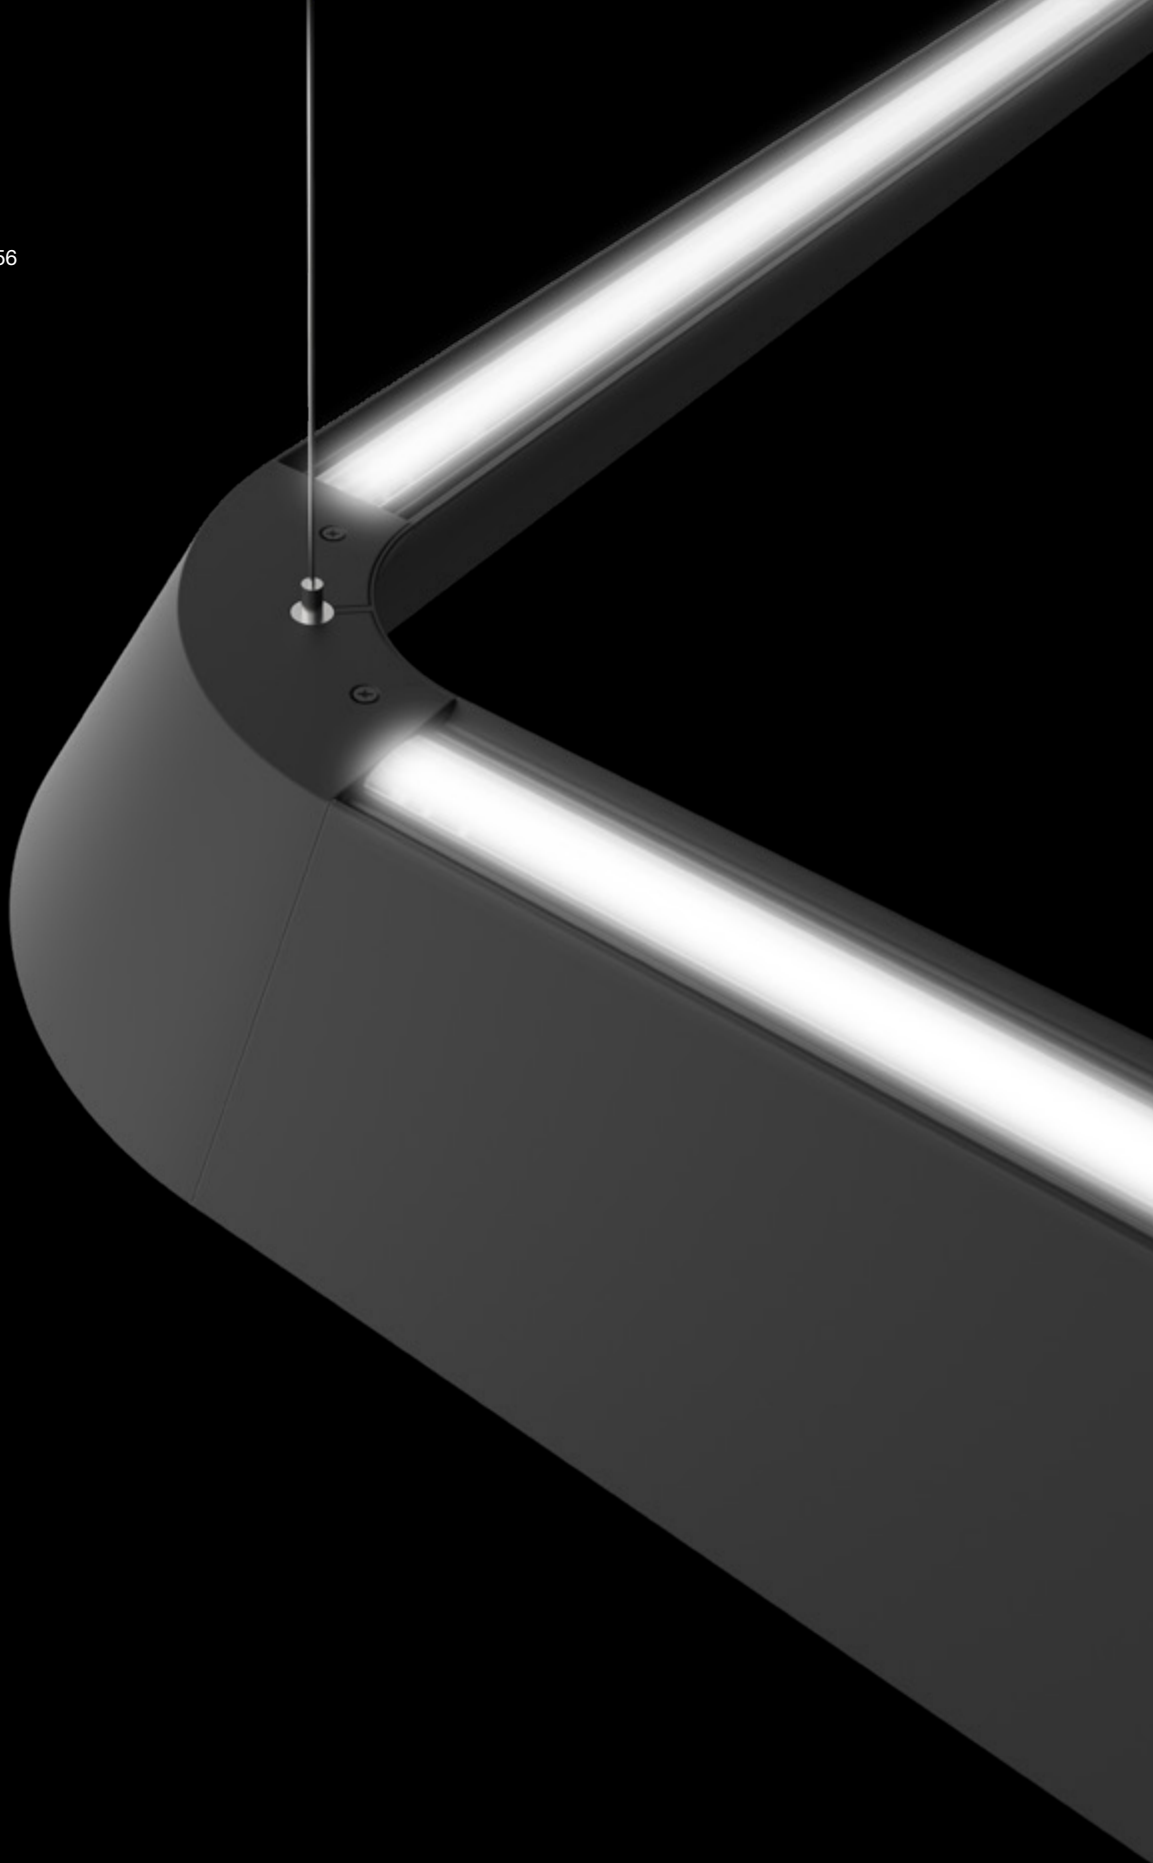

ANGLED PROFILE

Relay has corner options of 90° and 120° angles, allowing designers to create various shapes.
